VZ200

VZ-200 CASSETTE INLAYS

This program is for all you VZ-200/300 users who have piles of cassette tapes and want to index their contents so it's easy to find what you want. This program uses the PP-40, a printer/plotter distributed by Dick Smith, and makes extensive use of the graphics command supported by this printer. The program contains comments for those users unfamiliar with the required commands, and for those who are thinking of converting the program.

Ian Duffield,
Cromer, NSW

The Winchester Solution

The Mountain DriveCard is a complete 20 megabyte hard disk system completely self contained on one IBM PC expansion slot.

DriveCard plugs into any expansion slot. No cabling or use of disk drive spaces required. You don't even have to change any jumpers - just plug in and go. When you need to move data from PC to PC, DriveCard is the answer. Rugged design and automatic head-lock make it the perfect way to move your data.

- ☐ 30 seconds to install and remove
- ☐ Portable and rugged - withstands 60 G's
- ☐ Low power consumption (14 watts) - works with any PC or compatible
- ☐ Fast - access time equivalent to an XT drive
- ☐ Compatible with DOS 2.1 or higher and Xenix System V
- ☐ Full 12 months warranty

The DriveCard puts 20 megabytes in the palm of your hand.

WHEN YOU WANT THE BEST!

THE SAM1275 MODEM FROM PULSAR

**SOLID
AUSTRALIAN
TECHNOLOGY**

SENSIBLY PRICED

\$500 plus tax.

It has:

- 300/300 baud (V.21)
- 1200/75 baud (V.23)
- 1200/1200 baud (V.22) optional — \$250
- Real Hayes compatibility
- Auto dial
- Auto answer
- Baud rate conversion
- Auto sense on incoming baud rates
- Handset
- Pulse and tone dialling
- Telecom Approval
- Connect and disconnect strings
- Dial-back security, inbuilt
- Viatel software
- for IBM & Apple available.

**Option: 1200 baud. Get it now or
add it later for \$250 plus tax.**

Everything else is standard.
The SAM1275 is uncompromising
Australian technology, thoroughly
documented, in 'No Frills' packaging.

**For further information, ring
David Furst.**

**We've sharpened
our pencil to sell
you a STYLUS.**

STYLUS is a radical breakthrough. It's a new tool for designing PC programs.

STYLUS is a flowblock editor and translator. That means you simply *design* the program — and STYLUS *codes* it all for you in PL/I, dBASE II or BASIC.

The concept of the flowblock dates back to 1973 but it was not until 1985 that it was delivered to the PC user. Now STYLUS is available for IBM, Apricot, Olivetti, APC III and Panafacom.

STYLUS makes you more efficient and makes maintenance a breeze. To learn more about it, just send the coupon for our brochure.

But to learn a *lot* more about it, here's our special sharp-pencil offer. Send \$15 as well (or charge your Bankcard) and we'll send you the whole demo kit. If you don't fancy **STYLUS** after 30 days, send it back and we'll refund the \$15. But if you find life will never be the same without it (and it won't get our introductory 20% discount by sending only another \$105. That's thirty dollars off the regular price!

Be sharp about it. Clip the coupon right now. Try **STYLUS** and...

To be blunt — you'll buy it!

STYLUS
